

# HOME MAINTENANCE SPRING CHECKLIST

**Remember that these tips are general guidelines, and specific maintenance tasks may vary depending on your location and the type of home you have. Regular home maintenance is essential for preserving your property's value and ensuring a safe and comfortable living environment.**

- Inspect and clean gutters and downspouts to prevent clogs
- Check roof for any damage or loose shingles
- Clean or replace HVAC filters for better air quality
- Service air conditioning system to ensure efficient cooling
- Test and clean outdoor faucets and hoses
- Trim bushes and trees away from house to prevent damage and pests
- Check for cracks and gaps in windows and doors, and seal them
- Inspect and repair any damaged or worn-out caulking around windows and doors
- Clean and ventilate attic to prevent moisture and mold
- Test smoke detectors and carbon monoxide alarms, replace batteries if needed
- Prepare your garden and plant seasonal flowers or vegetables
- Check and repair any damaged fencing or gates
