

HOME MAINTENANCE WINTER CHECKLIST

Remember that these tips are general guidelines, and specific maintenance tasks may vary depending on your location and the type of home you have. Regular home maintenance is essential for preserving your property's value and ensuring a safe and comfortable living environment.

- Ensure all pipes are well-insulated to prevent freezing
- Keep thermostat at a consistent temperature to avoid extreme fluctuations
- Check for and seal any drafts around windows and doors
- Test and change batteries in smoke detectors and carbon monoxide alarms
- Keep sidewalks and driveways clear of snow and ice to prevent accidents
- Check for leaks in roof and attic after heavy snowfall
- Inspect and clean the gutters to prevent ice dams
- Reverse ceiling fans to circulate warm air downward
- Check for any signs of pest infestation seeking warmth and shelter
- Clean and vacuum vents and baseboard heaters to improve heating efficiency
- Insulate the attic if necessary to prevent heat loss
- Keep the fireplace and chimney clean throughout the winter season
